Research and Development: More Problems

The recent change of steersman in the nation's capital has not been too beneficial for the advancement of science and technology in this country, according to Robert Willes of the Canadian Federation of Biological Societies (CFBS). In a recent news release issued by the CFBS and the Canadian Association of University Teachers (CAUT), "Prime Minister Trudeau is once again ignoring the long-term need for the development of Canadian science and technology by dividing the responsibility of the Minister of State for Science and Technology (MOSST) with that of another Minister." The appointment of the Hon. John Roberts to the joint portfolios of Environment and Science and Technology is a "deplorable"

situation, according to Dr. Willes, and is viewed in the news release as a "clear sign of the Prime Minister's indifference to the development of science and technology."

"Without any reflection on Mr. Roberts himself, a part-time minister of Science and Technology is completely unacceptable and contrasts markedly to the significant attention given the MOSST by the Clark government," Dr. Willes has averred. The goal of regaining Canada's competitive status in international trade, for Dr. Willes, "cannot be attained with a part-time effort."

Donald C. Savage, Executive Secretary to the CAUT, is equally concerned. "The CAUT," said Dr. Savage, "as well as many faculty associations plus

Canadian scientists in industry and universities urged Mr. Trudeau immediately following the 18 February election to ensure that the MOSST was a portfolio without other ministerial responsibilities." According to Dr. Savage, "this would allow the minister to devote his time to solving problems of Canada's poor performance in industrial R & D, the continual erosion of our university research base and the crisis in the supply of highly qualified manpower for research which is predicted for the late 1980s."

Dr. Savage said that he hoped the Prime Minister would change his mind and relieve the minister in charge of science and technology of all other ministerial responsibilities. □

Board of Governors

The last regular meeting of the Board of Governors was held on Friday, 7 March. The following items were among those discussed.

Preliminary Operating Budget, 1980-81

An annual and, for the last few years, gloomy exercise was again accomplished at the March meeting of the Board: the presentation and approval (necessary but reluctant) of a proposed operating budget for the 1980-81 fiscal year. Necessary, because the new fiscal year will begin on 1 April. Gloomy with reluctant approval, because even the required 9.3 percent increase over the figures for 1979-80, though almost meeting provincial government guidelines, is still, in the words of one Board member, "woefully inadequate."

There were no palliatives offered by the Board's Finance Committee and the Vice-President (Finance and Administration) L.C. Leitch. Student fees, it was agreed by a majority of Board members present, must increase by 10 percent. It was recognized that yet more academic and non-academic positions must be lost. In short, after much discussion of a philosophic and material nature, the Board approved an operating budget. It will be presented to the provincial government and, though calling for an expenditure of some \$149,320,000 during 1980-81, still falls far short of what is required to maintain The University of Alberta as a "multi-

university of excellence," and "a research university."

Appointments

The Academic Concerns Committee reported for information that the following people have been appointed as department chairmen:

N.W. Rutter has been appointed to the chairmanship of the Department of Geology. His will be a five-year term from 1 July next.

A native of Omaha, Nebraska, Dr. Rutter gained his baccalaureate degree at Tufts University, a master's degree from the University of Alaska, and a PhD from The University of Alberta. Following graduation from this University, Dr. Rutter held a position with the Geological Survey of Canada in Calgary. He has acted as a part-time instructor at the University of Calgary. He joined this University's Department of Geology in 1975.

A.N. Kamal will take up a five-year appointment as Chairman of the Department of Physics on 1 July 1980.

Dr. Kamal was born and raised in Dacca (now in Bangladesh) where he received his bacca-

N.W. Rutter

laureate and master's degrees. In 1958, he moved to the United Kingdom and, in 1962, won a doctorate in theoretical physics at the University of Liverpool. In 1963, Dr. Kamal came to The University of Alberta as a post-doctoral fellow at the Theoretical Physics Institute and the following year joined the Department of Physics. Dr. Kamal has served as Senior Scientific Officer at the Rutherford High Energy Laboratory and, among his other appointments, has been visiting scientist at the International Centre for Theoretical Physics in Trieste, Italy.

W. Skoropad will hold a three-year office as Chairman of the Department of Plant Science. His duties will begin on 1 July 1980.

Dr. Skoropad was born in Vegreville in this province and is a graduate at the baccalaureate and master's levels of this University. Plant pathology was his major interest while at the University of Wisconsin, where he gained his PhD in 1955. Before joining the faculty of The University of Alberta in 1959, he spent some time teaching in public school and as an Agricultural Research Officer with Canada Agriculture.

Dr. Skoropad is no stranger to the arcana of administration at the departmental or faculty level. In 1967, he served as Assistant Dean in the Faculty of Agriculture and, in 1968-69, as Acting Chairman of the Department of Plant Science.

Public Management Program

It may not be business as usual

A.N. Kamal

when the Faculty of Business Administration and Commerce welcomes students in the fall of 1981.

The Faculty could be housing and administering a new graduate program in public management if a University request for special funding is approved by Alberta Advanced Education and Manpower.

The proposed program has been endorsed at various hearings on campus and the meeting of the Board of Governors on 7 March proved no exception to the rule.

If funding—\$1,617,830 for the first five years of the program—is forthcoming, the University will establish a two-year, twenty-course program with fifteen required courses and five elective courses leading to the Master of Public Management degree.

The dollar amount was arrived at by the Board Finance Committee and approved at the Board meeting. Included in the budget is the hiring of a full-time Director/Associate Dean, two or three additional faculty, and some support staff. Provision is also made for a number of visiting speakers.

According to the Board's Academic Concerns Committee, the program would be initially small with not more than twenty students per year.

The program was first mentioned a few years ago when the Alberta Premier's office expressed an interest in having the University establish a program in public administration. Com-

W. Skoropad

mittees were struck, discussions were held, advice was widely sought (both on and off campus), and reports were prepared.

The upshot of that activity is a course of study which will ready students for eventual senior administrative positions in municipal, provincial, and federal governments, and for other public enterprises in Alberta, Canada, and abroad.

It will focus on both management theory and skills, and on public issues and policy formulation and implementation.

"The graduate," says the final report written by the Faculty of Business Administration and Commerce, "is expected to become a successful manager, a competent professional who can pull together principles and people from diverse disciplines."

The Faculty says that students will be able to attend much of the program on a part-time basis (the Master of Business Administration degree program is offered in this way now).

"To this end, courses will be offered for the convenience of both part-time and full-time students."

There is a host of informal indication of need and demand for such a program, the Faculty notes.

"The standards of the program, and the quality and success of its graduates will play a critical role. We propose that the program start small, small enough so that we can feel our way before making major commitments, and then grow with experience." □

General Faculties Council

The next GFC meeting will be held on Wednesday, 26 March 1980 at 2 p.m. in the Council Chamber, University Hall.

The agenda for that meeting follows:

1. Approval of the Agenda
2. Approval of the Minutes of 11 February 1980
3. Question Period
4. New Members of GFC 1980-81

Reports

5. Executive Committee Reports
 - 5.1 Executive Committee Minutes of 18 February 1980
 - 5.2 Executive Committee Minutes of 3 March 1980
6. Report of the Board of Governors
7. Report of the Nominating Committee

New Business

8. Representation on GFC: Request from the Principal of St. Joseph's College
9. Department of East Asian Languages and Literatures: Proposal from UPC
10. GFC Undergraduate Scholarship Committee: Proposal for Scholarship Program
11. Faculty of Home Economics: Request for Deviation from Selection and Review Procedures for Deans and Department Chairmen
12. Faculty of Medicine: Request for Deviation from Selection and Review Procedures for Deans and Department Chairmen
13. GFC Writing Competence Committee Report: Recommendation from Vice-President (Academic)
14. Other business. □

1980 Summer Youth Employment

Canada Employment Centres in Alberta are now accepting applications for the funding of projects under the federal government's 1980 Summer Youth Employment Program, and according to K. King, Program Officer, University departments are eligible to apply for such funds.

The 1980 Summer Youth Employment Program is specifically designed to create jobs for unemployed students during the summer months (from the beginning of May for eighteen weeks) through special projects sponsored by local institutions. A total of \$3.2 million has been assigned to our province to support the program.

University departments may apply for funds under the program but the projects to be funded should be of benefit to a wider community and should not constitute an element in a student's degree or certificate

program. The funds, if awarded, will allow the employment, at minimum wage, of at least three students. In addition, a department gaining funds will receive a small sum based on the number of students participating in the project to help in defraying administrative costs. Departments which received funds under the program may, of course, supplement the payment to each student to raise the level of pay above the provincial minimum wage.

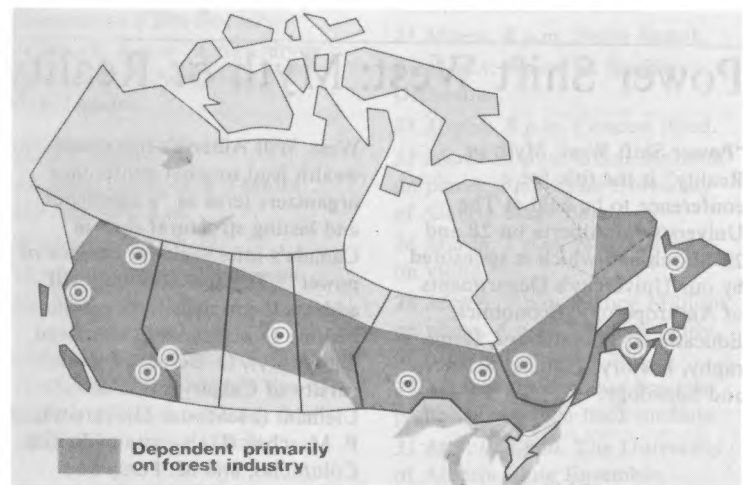

The deadlines for applications for funding under the terms of the 1980 Summer Youth Employment Program is 28 March. More information and application forms are available from K. Heavenor, Manager of the Canada Employment Centre in the Students' Union Building, or from K. King and M. Coombs of the Edmonton Youth Employment Centre, telephone 420-2081. □

"The Role of the Federal Government in Canadian Forestry"

With all the talk generated by the so-called energy crisis, a person could be enticed into believing that crude is the key industry in the country. Not so, says Vancouver economist, Leslie Reed. "Forestry is the number one industry in Canada!" Because of its influence on the economy as a whole, the industry must have a centre of focus and strong organizational leadership provided by the federal government. Mr. Reed was quite frank about the need for purposeful direction from the government during a recent 6 March forest science lecture here on campus.

private firms required that he spend over 170 days travelling to thirty countries—everywhere from the Middle East and Turkey, to Germany, Italy and the Philippines.

In his talk, Mr. Reed explicitly referred to the history of the Canadian Forest Service, its "good times and bad times," to illustrate the fluctuating level of priority given to the industry by government. Over the past decade the Canadian Forest Service has been down-graded to a low level of importance by a series of unconcerned ministers and senior

Canada's forest economy and emerging timber deficits.
Figure courtesy of Leslie Reed

As a specialist in forestry economics, Mr. Reed is well qualified to speak about the role of government in the forestry industry. Prior to the establishment of a highly successful economics consulting firm in 1971, he held several senior positions with regulatory bodies and the federal government. As a consultant, Mr. Reed's services are in great demand. Last year the queries of governments and

civil servants. According to Mr. Reed, as the country enters the 1980s on a note of uncertainty, the Forest Service consists of a small demoralized staff, without strong leadership. The key people in the organization lack all types of skills and have no central purpose on which to focus their efforts.

Mr. Reed feels that although forestry in the private sector is doing well, the full potential of

the industry is not being realized. All areas of the industry are not receiving the government support required to plan for the future. Whether it be research, coordination, or resource management, government input is not readily available.

At present there are over twenty agencies or departments in Ottawa involved with forestry. Each agency appears to be concerned only with its own area of jurisdiction and does not communicate with other departments. The result is no central focus upon one common goal.

According to Mr. Reed, this lack of coordination, as well as decreasing funds for research, is resulting in forestry deficits across the country. Without careful planning for the future, the forestry industry will be unable to maintain its vital role as a primary employer and leading economic force. □

Henry Marshall Tory Lecture 1980

On 2 April 1980, Wednesday, one of the most prestigious of the University's annual lectures will be delivered in the Social Room of the Northern Alberta Jubilee Auditorium at 8 p.m. This year The Friends of The University of Alberta, organizers of the lecture, have invited Professor Sir William Hawthorne, CBE, FRS, to speak. His topic will be "Energy Prospects and Problems."

Sir William, Master of Churchill College and Professor of Applied Thermodynamics at the University of Cambridge, is a most highly respected scholar. Born in Benton, Newcastle-upon-Tyne in northern England, in 1913, Sir William was educated at Westminster School, Trinity College, Cambridge, and at the Massachusetts Institute of Tech-

nology, where he gained the ScD in 1939. During his studies, he was a Graduate Apprentice and a Development Engineer with Babcock and Wilcox Limited, and a Commonwealth Fund Fellow at MIT. From 1940 to 1944, he served as Scientific Officer at the Royal Aircraft Establishment and from 1944 to 1945 held a similar position at the British Air Commission in Washington, D.C. Returning to Great Britain in 1945, Sir William passed a year as Deputy Director of Engine Research for the Ministry of Supply before embarking on a series of appointments on both sides of the Atlantic, at MIT and the University of Cambridge.

Widely known for his research and publications concerning fluid mechanics, aero-engines, the aero-

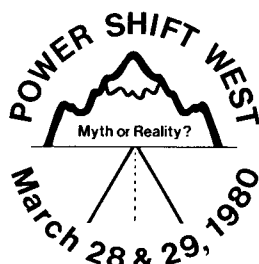

dynamics of gas turbine and jet propulsion units, flames and flexible barges, Sir William has been the recipient of a host of honors. Installed as Knight Bachelor in 1970, he was made a Commander of the British Empire in 1959, was awarded the United States of America Medal of Freedom in 1947, and, in 1976, an honorary Doctor of Engineering degree from the University of Sheffield.

Sir William's professional memberships include election as Fellow of the Royal Society, Fellow of the Fellowship of Engineering, Fellow of the American Academy of Arts and Sciences, to name only a few.

The lecture to be given on 2 April will be open to the public and there is no admission charge. □

Power Shift West: Myth or Reality

"Power Shift West: Myth or Reality" is the title for a conference to be held at The University of Alberta on 28 and 29 March and which is sponsored by our University's Departments of Anthropology, Economics, Educational Foundations, Geography, History, Political Science, and Sociology.

Speakers at the conference will question the extent to which Alberta's perceived status as the "OPEC" of Canada promotes a shift of power to the Canadian

West. Will Alberta's increasing wealth lead to what conference organizers term as "a significant and lasting structural shift in Canada's inter-regional balance of power?" The speakers who will address themselves to this topic include D. Alexander (Memorial University), D. Bercuson (University of Calgary), Wallace Clement (McMaster University), P. Marchak (University of British Columbia), and M. Percy and L. Pratt of this University.

A public lecture will also be delivered as part of the conference. This will be given by the President of the Canada West Foundation, S. Roberts, at 8:30 p.m. in 2-115 Education North on Friday, 28 March.

The conference, in addition, will be organized to allow and encourage detailed discussion of a variety of topics. Such topics will include the socio-demographic trends associated with resource development, the location and ownership of primary and secondary industry, the structure

of social class and power in this country, regional economic rigidities the role of the state, and constitutional uncertainties in federal-provincial relationships.

The conference registration fee is \$10, and an additional \$15 for those people who wish to attend

the conference dinner on the evening of Friday, 28 March. Registration forms are available in the offices of the sponsor departments and from Sharon Rubuliak, Canadian Studies, 6-12 Humanities Centre, telephone 432-5086. □

"Parler Francais" Before the Summer

For the third year in a row, a very intensive French immersion program for professionals has been organized at Faculté Saint-Jean. A maximum of twelve students will be accepted on a first-come, first-served basis for this three-week course beginning on 12 May.

The thirty-three graduates of this course have achieved a high level of fluency and many went on to spend their summer in

various francophone regions of the world.

Two professors, Claudette Tardiff and Yves Puzo, will work on the individual difficulties of each student in order to keep the class moving along quickly. Classes run from 9 a.m. to 4 p.m. five days a week. The course costs \$150 and inquiries should be directed to Liliane MacCallum at 466-2196, extension 58. □

A Rite of Spring

At long last spring. The days are sunny, the footfalls are light, and a song is on everyone's lips, especially those of the University of Alberta Concert Choir. The Choir, a mixed ensemble of more than seventy singers representing virtually all Faculties, will present its Spring Concert on Friday, 28 March, at 8 p.m. in Convocation Hall.

The program will feature works by Brahms, Mendelssohn, Kodaly, Byrd, and Canadian composers Healey Willan, Kelsey Jones, Barrie Cabena, and Keith Bissell. Also, a new work written for the Concert Choir by G. Krapf will be premiered.

Tickets are priced at \$4 regular and \$2 for students and senior citizens and can be obtained from the box office in the HUB Mall,

the Music Department Office, from Choir members, and at the door.

The Choir was established in 1970. Sponsored by the Department of Music, it follows an active schedule with annual Christmas and Spring Concerts, radio and television broadcasts, and participation in workshops, religious functions, and school programs. Membership is based on an audition for musical ability and enthusiasm for singing.

Each spring, some forty or fifty singers selected from the larger ensemble go on tour. This year the Choir and Conductor Larry Cook will journey to the eastern United States for the first time. Concerts will be given in New York City, Washington, D.C., and Virginia. □

Forensic Dentistry Today

The Faculty of Dentistry will be hosting a continuing education course on the use of dentistry in crime investigation, 28 and 29 March. This comprehensive program is designed for dentists, doctors, law enforcement officers and auxiliaries. Some of the areas to be covered in the program

include studies of a number of difficult cases, the latest techniques of identification, and the presentation of cases in court. For information and application forms contact the Division of Continuing Education, Faculty of Dentistry, University of Alberta, Edmonton, T6G 2N8. □

people

Gordon E. Myers has been appointed Acting Dean of the Faculty of Pharmacy and Pharmaceutical Sciences with an indefinite term of office retro-active to 15 February 1980. The

appointment was made necessary by the sad death of Dean Van Petten earlier this year.

Dr. Myers is a graduate of The University of Alberta at the baccalaureate and master's levels and holds a PhD from McGill University. He joined the faculty at this University in 1947 and, before accepting the current appointment, was serving as Associate Dean of the Faculty.

Harold B. Barclay, Professor of Anthropology, spoke on "Peoples without Government: the Anthropology of Anarchy" at the International Symposium on Anarchism, Lewis and Clark

College, Portland, Oregon, 20 February. Earlier he gave a paper on "Revitalization Movements in the Modern Islamic Middle East" at the University of Calgary. In November on the occasion of the 'Id al 'Adha he and Professor Noorzoy in Economics were invited speakers at a gathering of the Rashid Mosque, Edmonton. On 29 November Dr. Barclay was discussant at a session on "Middle Eastern Emigrants" at the annual meeting of the American Anthropological Association, Cincinnati, Ohio.

D.B. Bromley, University of Liverpool, presented a guest lecture titled "The History of Social Attitudes Toward the Aged," on 18 March.

L.W. Conolly, Professor of English, has been elected to a four-year term on the executive committee of the International Federation for Theatre Research, and to a three-year term on the executive committee of the American Society for Theatre Research.

Lee Armstrong, a graduate student in the Department of Elementary Education has created a computer assisted instruction program to teach the fundamentals of Landsat satellite image interpretation. Any staff or student interested in using the program may contact Mr. Armstrong at 432-4909, or his advisor, J.M. Kirman at 432-5093.

Donald D. Betts, Professor of Physics, has been appointed Dean of Arts and Science at Dalhousie University in Halifax. He will leave at the end of August after twenty-five years of service at The University of Alberta.

Dr. Betts is a native of Nova Scotia and a Dalhousie graduate.

At this University, Dr. Betts has pursued a very active research program in statistical physics especially as applied to magnetism, fluids, and superfluids. He has been President of the Canadian Association of Physicists, founding Vice-President of SCITEC and Chairman of the International Commission on Thermodynamics and Statistical

Mechanics. Dr. Betts has served on numerous committees at the University of Alberta including the Executive Committee of GFC, presidential and vice-presidential selection committees and the Folio advisory committee. He was Director of the Theoretical Physics Institute for six years.

Besides teaching courses in physics at all levels, Dr. Betts has supervised eighteen graduate students and a similar number of post-doctoral fellows. For the past two and a half years he has had a weekly radio program on science broadcast over CBC AM radio on Wednesday mornings. The programs usually consist of an interview by Dr. Betts of one of his colleagues on campus on the subject of the colleague's scientific research.

Dr. Betts is currently Chairman of the Organizing Committee of the Fourteenth International Conference on Thermodynamics and Statistical Mechanics which will take place at The University of Alberta 17 to 23 August 1980. The Conference is expected to attract some 800 scientists from around the world.

coming events

Due to the 4 April closure of University buildings, all listings must reach the Editor by 9 a.m. Wednesday 26 March. Listings should be sent to 423 Athabasca Hall.

Lectures and Seminars

The University Parish
20 and 21 March. 7:30 p.m.
A symposium on cults with
C. Clay and K. Larson. 158A
SUB. Telephone 432-4513 or
432-4621.

Department of Entomology
20 March. 4:30 p.m. W. Barr will
discuss "Silk production of black
fly (Diptera: Simuliidae) Larvae."
62 Athabasca Hall Annex.

Department of Classics
20 March. 4 p.m. J. Wilson will
talk about "Traditional Values
in Thucydides, Part I: The Land."
1-8 Humanities Centre.

21 March. 11 a.m. F. Cairns
will present his first lecture on
"The Generic Approach to
Classical Poetry."
4 p.m. Second lecture on "The
Characterization of Aeneas and
Dido in Virgil's Aeneid."
1-8 Humanities Centre.

Public Lecture
20 March. 8 a.m. Mollie Hunter,
children's author, will be guest
speaker. 3-22 Faculty of Library
Science.
8 p.m. 129 Education South
Building.

Department of Geography
21 March. 2 p.m. L. Leopold of
the University of California will
discuss "Bedload Measurement
and Procedures." 3-36 H.M.
Tory Building.

Department of Art Design
21 March. 2:30 p.m. J. Eger will
talk about "Industrial Design."
2-20 Fine Arts Building.

*Edmonton Association for

meeting. Unitarian Church
auditorium, 12530 110 Avenue.

*Division of East European
Studies*
24 March. 11:50 a.m. P. Chapin
of External Affairs in Ottawa will
address "Contemporary Soviet
Foreign Policy and its Impli-
cations for Canada."
311 Athabasca Hall.
1:30 p.m. P. Chapin will talk
about "Soviet Intervention in
Afghanistan." 5-6 H.M. Tory
Building.
25 March. 3:30 p.m. Y.
Radziejowski will talk about
"Organization and Sociological
Problems in Soviet Higher
Education." 311 Athabasca Hall.

*Department of Computing
Science*
24 March. 7:30 p.m. S. Zweben
of the Ohio State University, will
talk about "An Approach to
Computer Program Testing."
B617 General Services Building.

The Women's Canadian Club
24 March. 12:15 p.m. S. Mulcahy
will speak on "The Artist and His
Audience." Hotel MacDonald.
Telephone 469-7961 for
information.

*Institute of Theoretical
Psychology*
24 March. 2 p.m. D. Broadbent
of Oxford University will discuss
"Noncorporeal Explanation in
Psychology." 14-6 H.M. Tory
Building.

*Department of Elementary
Education*
25 March. 7:30 p.m. G. Howell
of the Alberta Research Council
will talk about "Energy Con-
sciousness/Appropriate Solar
Housing Today." 129 Education
South Building.

Society of Friends
25 March. 7:30 p.m. The
Religious Society of Friends
(Quakers)—Boyle Street Meeting
—will hold a meeting for worship
with a witness for peace in 158A
Students' Union Building.

*Institute of
Theoretical Physics*
26 March. 3:30 p.m. G. Kane
of the University of Michigan
will discuss "Can We Do Higg's
Physics Experimentally Before
LEP." P640 Physics Building.
27 March. 3:30 p.m. P. Sommers
of North Carolina State Uni-
versity will speak on "Gauge
Field Theories at the Classical
Level and Solutions of the Source-
free Field Equations." P631
Physics Building.

Population Studies Seminar
26 March. 3 p.m. C. Kinzel will
speak on "Collection of Data."
14-6 H.M. Tory Building.

Department of Sociology
26 March. 12 noon. G. Lowe
will speak on "Some Aspects of
Bank Unionization in Canada."
5-15 H.M. Tory Building.

Department of Botany
26 March. 4 p.m. E. Bombin
will discuss "Paleoenvironmental
Studies of Mary Gregg Lake,

Alberta." M-149 Biological
Sciences Building.

Departments of Comparative Literature and Slavic Languages

27 March. 10 a.m. "Russian
Formalism and Czech Struc-
turalism," a seminar with Jurij
Striedter of Harvard University.
4 p.m. "Drama and Theatre in
Revolution," with lecturer
Professor Striedter. Both the
seminar and lecture will be held
in the Senate Chamber, Arts
Building.

Department of English
27 March. 4 p.m. D. Daiches
will speak on "The Teaching of
English at Universities: Aims and
Methods." AV L-3 Humanities
Centre.

Department of Entomology
27 March. 4:30 p.m. G. Gibson
will talk about "An introduction
to the Eupelmidae (Hymenoptera:
Chalcidoidea), the contortionists
of the insect world." 62
Athabasca Hall Annex.

service information

Information must reach the Editor by 9 a.m. on the Thursday prior to publication. Written notification is necessary. Notices should be sent to 423 Athabasca Hall.

Scholarships, Fellowships and Awards

Fees Support Scheme

A "Fees Support Scheme" has been established by the Secretary of State for Education and Science in Great Britain. The scheme is open to graduate students who can demonstrate "out-standing merit and research potential," offers a partial remission of fees, and is directed only at those students who enrol at universities in the United Kingdom, the business schools at Manchester and London, the Royal College of Art, and at the Cranfield Institute of Technology. The closing date for applications is 25 April 1980. Further information may be gained by approaching the Student Awards Office, 252 Athabasca Hall.

Northern Studies Fellowship

A post-doctoral fellowship in northern studies is available to researchers in all disciplines. The duration of the fellowship is one year with possible renewal. For information contact the Arctic Institute of North America, University of Calgary, 284-3387.

Saskatchewan Research Program

Scholarships valued at \$20,000 per year for two to three years, are available to researchers with PhD training in any of a wide range of disciplines. For information contact the University of Saskatchewan, College of Graduate Studies and Research, Saskatoon, Saskatchewan, S7N 0W0.

Dr. Jean C. Nelson

Memorial Award

Scholarships valued at \$3,000 are available to assist in graduate study related to community health. For information contact the Student Awards Office, 432-3221.

Notices

Illegally Parked Vehicles

In the near future the cost assessed against the owner/operator of an illegally parked vehicle that is towed from this campus will be \$20 for towing plus \$2 per day storage.

Bookstore

The University bookstore will be closed for annual inventory 27 and 28 March. It will be re-opened 31 March 1980.

Selection Committee for Chairman of Division of Foods and Nutrition

The GFC Nominating Committee is seeking nominations for one member of the academic staff to fill the vacancy on the above selection committee. Regulations governing the composition of selection committees require that one member, not a member of the department concerned be elected by General Faculties Council.

Would those who have suggestions for nominations or who are interested in serving on the above committee, please contact the Secretary of the Nominating Committee at 2-1 University Hall, telephone 432-4715.

It would be appreciated if a brief vita could accompany any nomination.

Host Families Sought

The International Student Office has had various recent requests from visiting students who would like to get to know Canadian families. These students have adapted to the University environment and the demands of their academic programs; they would now like to find out more about the Canadian lifestyle, customs, etc., by spending an occasional day, evening, or week-end with a Canadian couple or family. If you would be interested in getting to know one or more of these students, please contact the office at 432-4145.

Spring Tune Up

Beginning 14 April, the Department of Athletic Services will offer a "Spring Tune Up" for members of the University community who wish to become more physically active. There will be classes for beginners and others more used to exercise. More information about the classes and clinics will be contained in *Folio* and in campus-wide distribution of an information broadsheet.

Positions Vacant

Administrative Officer

Required for the Department of Sociology to provide administrative support for the department. Duties will include: personnel administration of a staff of 14; budget preparation; control of expenditures; preparation of statistical reports; supervision of registration procedures and student record processing; coordination of timetable preparation and calendar submissions; student counselling on non-academic matters; and secretarial duties for senior departmental committees.

Candidates must have a proven record of administrative ability. Effective communication, both written and verbal, is essential.

Present salary range begins at \$17,708 per annum. The University offers outstanding benefits program. Interested persons please apply by comprehensive résumé as soon as possible to:

Chairman,
Department of Sociology
The University of Alberta
Edmonton, Alberta
T6G 2H4

An Equal Opportunity Employer

Executive Assistant to the Vice-President (Academic)

The Vice-President (Academic) invites applications for the position of Executive Assistant to the Vice-President (Academic). The general responsibilities of the appointee would be (a) to act as a facilitator to the

Vice-President in day-to-day planning, problem-solving, and decision-making and (b) to initiate, develop and maintain effective liaison with and provide active support to the President's Advisory Committee on Academic Reviews and its unit review committees. In the latter connection the appointee would work closely with the Chairman of the Advisory Committee. A more complete job description is available to interested applicants.

Administrative or academic experience in a University setting is required, as are good communication skills.

This is an APO position with a salary range (1979-80) beginning at \$20,428 per annum. Actual starting salary within the range will be commensurate with qualifications and experience. The position has been evaluated at 551 Hay points. The appointment will be made to take effect not later than 1 July 1980.

Interested applicants should submit a letter of application, résumé and the names of three referees to: Dr. R.G. Baldwin, Vice-President (Academic), 3-5 University Hall, The University of Alberta, Edmonton.

Vacancies in Nigerian Universities

According to a recent notice from the Nigerian Universities Office in Ottawa, there are a plethora of positions vacant in the African country, at the Universities of Sokoto, Calabar, Jos, and at Bayero University. The positions are available at almost every level—Lecturers, Senior Lecturers, Readers, and Professors are required, and in a wide range of disciplines.

For further information about the positions available, please contact the Office of Community Relations, 423 Athabasca Hall (telephone 432-2325), or write to the Nigerian Universities Office, Tower A, Suite 2210, 320 Queen Street, Ottawa, Ontario K1R 5A3.

Non-Academic Positions

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, third floor, SUB, telephone 432-5201. Please do not contact the department directly. Positions available as of 14 March 1980.
